The background features a light green line-art illustration of a coffin and several leafy branches. The coffin is positioned in the upper right quadrant, and the branches are scattered around it. Two small purple speech bubble icons are placed on the page: one near the top left branch and another near the coffin.

A guide to our Coffins

Choose the *perfect*
coffins for your range

Terry Smith Coffins

We're Terry Smith Coffins...

...a talented team of highly skilled people who care about exceptional customer care and making beautiful coffins and caskets to order, using both traditional and modern methods. We specialise in business-to-business sales and support many funeral directors across Great Britain, offering them flexibility, agility and choice to delight their clients.

We care about sustainability, which is why all our materials are sourced from FSC-certified partners. We're also proud members of the Funeral Suppliers Association.

Our designs pay homage to both traditional designs as well as modern and sustainable innovations, and always with an eye on how the funeral sector is adapting to meet an ever-changing public view on how funerals should look and feel.

In addition to the things we make in our factory, we help by supplying products like PPE, coffin handles, coffin furniture, embalming products and the Autoglym car cleaning range, making us the one stop shop of choice for funeral directors.

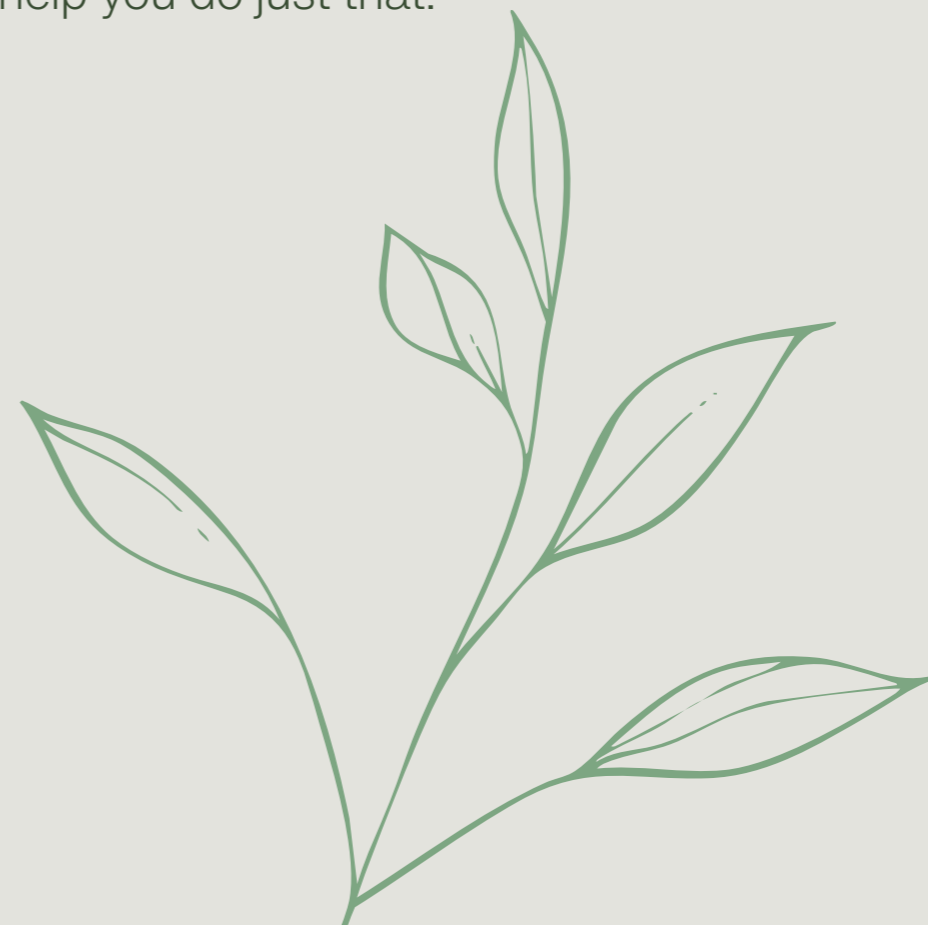

Our team

Terry Smith Coffins is based in Huthwaite, near Sutton-in-Ashfield, Nottinghamshire. Founded in 1987 with over 35 years of helping funeral directors, our team of just under 50 people have extensive knowledge and experience in creating a variety of coffins and caskets to meet the needs of our clients. Many of our team members have been part of the Terry Smith journey from the early days, with others having perfected their craft for 15 years or more, with everyone having a true passion for what they do.

We know the importance of getting things right first time, and that the families you support will be glancing at the coffin throughout the funeral service, so it needs to be very special and to give the person it's housing the perfect send off.

We know that you want to do the best you can to support the families in your care, which is why we do the best we can to help you do just that.

A truly versatile range to meet all needs
